Journal

Office of the Legislative Counsel

Thursday - 30 July 1959

1. General Cabell and Mr. Warner met for approximately one-half an hour with Representative Clement J. Zablocki (D., Wis.) See Memorandum for the Record.

2. Telephoned Grenville Garside on the Jackson Subcommittee to advise that it would be most appropriate for them to seek data on the policy making machinery of Britain and Germany from the Department of State, but indicated we would try to assist on the USSR and Communist China. (This after discussion with Mr. Robert Amory). Mr. Garside will forward an appropriate letter formalizing this request.

4. Briefed [] on the status of the health insurance bill in the House Post Office and Civil Service Committee. He was advised of Fred Eelen's statement that while we should offer to testify on the bill it was very unlikely that the Chairman would call us.

5. Met again with the group which is preparing the report on the Overseas Allowances Bill, H.R. 7758, for the House Committee on Post Office and Civil Service. Approximately six hours were spent in reviewing and redrafting the language of this report. In view of the extension of the filing date, more time will be available for this work. The group will meet again at 2:00 P.M. on Monday. At this time, Mr. [] will have prepared a final draft of the entire report for the group's consideration.

SIGNED

JOHN S. WARNER
Legislative Counsel
